

Chief Velocity Pedestal Modular Base **SKU: ODMPB1**

The Chief Velocity Pedestal Modular Base is a component of the Chief Velocity Pedestal Mount System. This easy to transport pedestal base unit can be ordered individually and pre-installed onto a concrete pad before the outdoor displays are mounted. The split installation approach allows electricians or general contractors to prepare the site for signage without needing to coordinate schedules with AV integration teams.

This base SKU includes three storage panels for components, a mounting template, and an adapter plate for outlet install.

VESA Mounting Pattern: 8 x 8 2032mm x 2032mm and 10 x 10 254mm x 254mm Square Pattern

Mounting Method: Concrete Mount Via Threaded Rod or Wedge Anchors

Specifications

Dimensions & Measurements	Internal Device Mounting Dimensions	15.34" x 16.37" x 17.76" (390 x 416 x 451 mm)
	Overall Dimensions	16.875" x 15.371" x 19.375" (428.625mm x 390.423mm x 492.125mm)
	Weight Capacity	20lbs (9.07kg) per panel and 948lbs (430kg) Maximum
Characteristics & Features	Color	Black
