

Ochno O-RT-LED-AL

Ochno Connect starts here.

SKU O-RT-LED-AL
GTIN 7350113051974

Product Description

The Ochno O-RT-LED combines retractable USB-C cable access with direct control of the connected Ochno system. It is designed for meeting tables, desks and workplace furniture using Ochno socket carriers and retractable cable management.

The cable extends through the socket when needed and retracts below the tabletop after use. This keeps the connector readily accessible while maintaining a clean table surface when the cable is not connected.

The integrated LED button allows the user to select or activate different operating modes:

Charging only for laptop charging without connecting to the room technology

Screen sharing or content ingest for presenting content through the room display

BYOM mode for using the room's display, camera, microphone and speakers with a meeting application running on the connected laptop

The LED provides visible feedback at the table, helping users understand the current system state or selected mode. An integrated 2 m control cable connects the button to compatible Ochno equipment.

O-RT-LED is a mechanical cable interface with integrated system control. Charging power, USB data rate and video capability are determined by the installed Ochno cable and connected system.

The extended Carrier-compatible housing measures 58 × 20 × 20 mm. It is available with an aluminium or black finish.

Key Benefits

Pull-out USB-C access

Provides a defined access point for a USB-C cable stored below the table.

Integrated LED button

Controls the operating mode of the connected Ochno system and provides visible feedback.

Charging-only mode

Charges the connected laptop without connecting it to the room technology.

Screen sharing and content ingest

Allows the connected laptop to present content through the room display.

BYOM mode

Connects the laptop to the room's display, camera, microphone and speakers.

Integrated 2 m control cable

Connects the LED button to compatible Ochno equipment installed below the table.

Retractable cable compatible

Can be combined with Ochno retractable cable management to store the USB-C cable below the table when not in use.

Freely routed cable option

Can also be used without retraction when the cable should remain freely accessible.

Cable-dependent performance

Charging, data and video capabilities depend on the installed cable and connected Ochno system.

Compact furniture installation

Installs through a 20 mm hole and measures 43 × 20 × 20 mm.

Two finishes

Available in aluminium or black.

Technical Specifications

Information

SKU	O-RT-LED-AL
GTIN / EAN	7350113051974

Specification

Material	Aluminium
Color	Aluminium
Dimensions	58 × 20 × 20 mm
Surface	Anodized
Mounting	20mm drill hole or in Ochno carrier

Specification - Weight

Weight	26
--------	----

Socket

Retractable	Yes
-------------	-----

Socket

Drill hole diameter	20 mm
Maximum table thickness	48 mm
Control wire length	2 m
LED button	Yes

Logistics

Included in the box	Socket, QR link sheet
Product box gross weight	70 g
Product box dimension	100 × 100 × 32 mm
Multipack gross weight	1473 g
Multipack dimension	350 × 208 × 108 mm
Products per multipack	18
