

Ochno O-RT-AL

Ochno Connect starts here.

Product Description

The Ochno O-RT provides a clean access point for a retractable USB-C cable installed below a meeting table, desk or other workplace furniture. The cable extends through the socket when needed and retracts below the tabletop after use, keeping the connector accessible without leaving loose cable on the table.

O-RT has no integrated LED button or control cable. It is intended for installations where no user control is required at the socket.

The socket is a mechanical cable interface. Charging power, USB data rate and video capability are determined by the installed Ochno cable and connected system.

O-RT has an extended Carrier-compatible housing measuring 58 × 20 × 20 mm. It is available with an aluminium or black finish.

SKU O-RT-AL
GTIN 7350113051950

Key Benefits

Retractable USB-C access

Provides access to a USB-C cable that retracts below the table after use.

Carrier-compatible design

Designed for integration with Ochno socket carriers. No LED button Suitable for installations that do not require system control at the socket.

Clean table surface

Keeps the cable stored below the tabletop when it is not connected.

Cable-dependent performance

Charging, data and video capabilities depend on the installed cable and connected system.

Extended socket housing

Measures 58 × 20 × 20 mm for installation in compatible Ochno carriers.

Two finishes

Available in aluminium or black.

Technical Specifications

Information

SKU	O-RT-AL
GTIN / EAN	7350113051950

Specification

Material	Aluminium
Color	Aluminium
Weight	26 g
Dimensions	58 × 20 × 20 mm
Surface	Anodized
Mounting	20mm drill hole or in Ochno carrier

Socket

Retractable	Yes
-------------	-----

Socket

Drill hole diameter	20 mm
Maximum table thickness	48 mm
LED button	No

Logistics

Included in the box	Socket, QR link sheet
Product box gross weight	60 g
Product box dimension	100 × 100 × 32 mm
Multipack gross weight	1293 g
Multipack dimension	350 × 208 × 108 mm
Products per multipack	18
